### Narrative Biography // 2015- 2021

We are 12ø, a collective motivated by interesting processes rather than shiny exhibitions. We create projects that utilise the gaps in our knowledge and harness our eagerness to learn. We are striving to create a programme that promotes, challenges, and encourages artistic practice in all of its manifestations. It is fundamental that we work towards an open, flexible, and supportive practice, catering to the development of artists and their individual needs. Our current members are Eva Duerden, Kelly Lloyd, and Lou Macnamara.
